PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER – L3/L2 SUPPORT

Alliance Software Inc. — Cebu City
February 2024 – Present

- Provide technical and user support by handling requests, troubleshooting issues, and coordinating resolutions.
- Manage and update support tickets, ensuring issues are accurately documented and followed through to resolution or escalation.
- Communicate professionally with users, colleagues, and stakeholders through email and other communication channels.
- Use BMC, Microsoft Outlook, Excel, Word, SharePoint, Teams, and other business applications to support daily operations.
- Prioritise multiple requests based on urgency, impact, and established procedures.
- Maintain accurate documentation and business information while handling sensitive user and company data.

- Collaborate with different teams to investigate issues and ensure requests are handled efficiently.
-

QUALITY ASSURANCE ANALYST

Technomancer, Inc. — Quezon City

June 2023 – February 2024

- Supported software teams by testing web applications for a Delaware-based client, identifying defects, and validating fixes before release.
 - Created and executed test cases, documented defects, and maintained accurate QA records.
 - Worked closely with developers and support teams in an Agile environment to investigate and resolve issues.
 - Performed regression testing and assisted with investigating user-reported issues.
 - Contributed to test automation initiatives to improve testing efficiency.
 - Collaborated effectively with team members and communicated testing results clearly.
-
